RUSSIAN WEATHER FORECAST.

The Czar may defy this storm—but it will play pretty lively about his angust person one day.

**OLDEST SOCIETY OF
SCHOOL TEACHERS**

Seventy-seventh Annual Meeting of
American Institute of
Instruction.

[SPECIAL TO THE GAZETTE.]

Montreal, Que., July 1.—Leading
educators from many parts of the
United States and Canada arrived in
Montreal today to take part in the
seventy-seventh annual meeting of
the American Institute of Instruction,
which is the oldest teachers' organization
in existence. The formal opening
takes place tonight and the sessions
will continue until Friday. The
president of the institute is George
A. Walton of West Newton, Mass.,
who has been a member of the organization
since 1846. In addition to the
general sessions there will be department
meetings for the discussion of
industrial education, patriotism and
internationalism, home and school,
commercial education, special education
and normal training.

Catholic Summer School
Cliff Haven, N. Y., July 1.—The
sixteenth annual session of the Catholic
Summer School of America opened
here today with a larger attendance
than in previous years. Several
members of the lecture force are already
on the ground, together with many
prominent churchmen and laymen.
Among the lecturers this year are
Professor Dennis O'Sullivan of
Philadelphia, Rev. James J. Fox of
the Catholic university at Washington,
Rev. Michael P. Smith of New
York city, Dr. James J. Walsh of
Fordham college, Professor J. C. Monaghan
of the Department of Commerce
and Labor at Washington, and
Michael J. Ryan of Philadelphia, president
of the United Irish League of America.

Lutheran Educators
Springfield, Ill., July 1.—One of the
largest gatherings of college professors
ever held in the United States
convened today in Trinity German
Evangelical Lutheran church in this
city and will continue in session until
Friday. The conference is composed
of the professors of colleges,
seminaries and universities of the
Missouri synod of the church, which
comprises the greater part of the
United States and Canada, and also
Brazil.

Oregon Teachers' Meeting
Salem, Ore., July 1.—The annual
city is in the hands of the school
teachers of eastern Oregon, who have
arrived here in large number to take
part in the annual convention of the
state association and the meetings of
the several affiliated bodies. Several
hundred teachers, representing every
branch of educational work, have already
arrived and many more are expected
on their way to the city. The formal
opening takes place this evening
and it will be Thursday before the
proceedings come to an end.

**ASSAULTER OF STEP
DAUGHTER LYNCHED**

Middle-Aged White Man Confessed to
Outrage Against Nine-year-old Girl.

[BY ASSOCIATED PRESS.]
Dalton, Ga., July 1.—Dock Posey, a
middle-aged white man, the self-confessed
assaulter of his nine-year-old step-daughter,
was taken from the county jail here early today
by a party of twenty-five men and hanged
from a railroad viaduct.

**TARIFF LEAGUE TO
FIGHT ROOSEVELT**

Will Endeavor to Prevent Making
Permanent the Reciprocity Treaty
with Germany.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., July 1.—Aroused
by the concessions granted Germany
in the new trade-convention with the
United States, which becomes effective
today, the American Protective
Tariff League is laying plans for an
active campaign against the enactment
of a permanent treaty, while the
changes made in the administrative
features of the customs regulations
by Secretary Root will be attacked
in both congress and the federal
courts. The plan of campaign, so far
as it has been developed up to the
present time, calls for bringing
test suits in the United States
courts to determine whether the
President has the right to alter the
Customs Administrative act, a creation
of congress, without first having
received the assent of the congress.
The chief allegation against the President
is that he has, in the German
agreement, provided that "export"
prices shall rule for purposes of duty,
thereby modifying the requirements
of the Customs Administrative act,
which require "foreign market values"
to rule in the levying of duties.
Inasmuch as export values are lower
than the foreign market values, it is
expected that American manufacturers
in many lines will interpose objections
to the continuance of the treaty
beyond the limited time specified
in the treaty.

**THIRTY-SIX YEARS
MEMBER OF FACULTY**

President Scott Butler of Butler Col-
leges Retires—Benefited by Car-
negie Pension Fund.

[SPECIAL TO THE GAZETTE.]

Indianapolis, Ind., July 1.—After
being connected with the institution
for thirty-six years, President Scott
Butler today severed his relationship
with Butler college, in accordance
with his announcement made at the
beginning of the term last spring. Dr.
Butler has been the president of the
college faculty for fourteen years and
during the past several years he has
been professor of Latin as well. With
his retirement he will become a beneficiary
of the Carnegie pension fund.

Meeting of Texas Lawyers

Benmont, Texas, July 1.—Many
eminent lawyers and jurists are
arriving here to take part in the twenty-
sixth annual meeting of the Texas
Bar association. It is expected the
attendance will reach three hundred
or over. The executive committee
met today to arrange for the final
details of the general sessions,
which will be held tomorrow and
Wednesday. Two prominent features
of the program will be the address of
the president, A. L. Beatty of Sher-
man, and the annual address, which
will be delivered by Judge Mancey
Lewis of Dallas.

**EQUITY SOCIETY TO
ORGANIZE BEAN MEN**

Growers of Michigan to Form Union
—Potato-Producers May Also
Be Associated.

[SPECIAL TO THE GAZETTE.]

Saginaw, Mich., July 1.—The well-
fare and happiness of Boston will re-
ceive a hard blow if the Michigan
branch of the American Society of
Equity puts into effect a plan now being
discussed. Michigan, as is ex-
plained by the promoters of the move-
ment, yields a large influence in the
bean industry, and it is now proposed
by the society to thoroughly organize
the bean growers with a view to
securing a higher price for their pro-
duct. It is planned also to organize
the potato growers along the same
lines. According to Secretary E. N.
Rail the plans will be completed at
the state convention of the society,
which will be in session here during
the next two days. The society re-
ports that its membership is rapidly
increasing throughout the state.

**SPECIAL DELIVERY
STAMPS BY-GONES**

Beginning Today Ten Cents' Worth
of Any Postage Will Insure
Rapid Transmission.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., July 1.—By vir-
tue of a new postoffice regulation put
into effect today the special delivery
stamp, with its familiar but unattractive
picture of a fleet-footed messenger
boy on the run, is relegated to the
list of obsolete institutions, useful
in their day but now no longer needed.
From this date it will no longer
be necessary to buy a special stamp
to insure special delivery. Ten cents
in stamps of any denomination, in
addition to the ordinary postage, is
all that will be necessary to insure
the transmission of letters and pack-
ages for special delivery. The change
is made for the convenience of the
public. Persons desiring to mail a
special delivery letter oftentimes
found it impossible to buy the special
delivery stamps at stores and other
places where the ordinary postage
stamps were on sale and hence
were obliged to go out of their way
to the postoffice or sub-stations.

**IMMIGRATION, TOPIC
OF RABBIS' MEETING**

Central Conference of American He-
brew Clergymen in Session
at Frankfort, Mich.

[SPECIAL TO THE GAZETTE.]

Frankfort, Mich., July 1.—This re-
sort has the honor this year of en-
tertaining the central conference of
American Rabbis, which began its
annual session here today, to continue
one week. Among the subjects out-
lined for discussion at the conference
are the following: A study of im-
migration, with special reference to
the Jew; history and function of cer-
emonies in Judaism; Judaism of the
Nineteenth Century; religious work
in Jewish institutions for dependents
and defectives.

**CORPORATION REGULATION
LEGISLATION IN EFFECT**

Many States Driving Out Bucket Shops And
Half A Dozen Enforcing Two Cent
Fare Law.

[SPECIAL TO THE GAZETTE.]

Washington, D. C., July 1.—Numer-
ous acts passed by the legislatures of
the various states during the past
winter and spring are to go into ef-
fect today. A number of them are
of a more or less radical character,
and many are directed against the
operation of trusts and bucket-shops,
while others provide for the regula-
tion of railways and insurance com-
panies. Still others are decidedly of
the freak order.

In half a dozen states the 2-cent
passenger rate and maximum freight
rate laws come into operation today.
In Iowa an anti-pass law goes into
force.
The new local option law of Illi-
nois, which goes into force today, is
expected to close hundreds of sal-
oons, especially in the rural districts.
In South Carolina an anti-bucket
shop law becomes effective. The law
is patterned after the Georgia law
and is expected to result in the closing
up of all exchanges dealing in
futures.

In South Carolina also a new ten-
hour labor law affecting cotton mills
goes into operation. For the present
the mills will be permitted to main-
tain a schedule of 62 hours a week,
but on January 1 the 60-hour sched-
ule will go into effect.

The measures enacted by the last
session of the Texas legislature are
not to come into force until July 11.
The most important of the new laws
in the Lone Star state, or the one of
most general interest, is that which
requires the life insurance companies
doing business in the state to invest
75 per cent of the reserve on Texas
business in Texas securities and de-
posit them with the state treasurer.
A number of the big insurance com-
panies have decided to withdraw from
Texas rather than comply with the
new law. Another measure passed
by the last Texas legislature entitles
a traveler to have a top sheet of a
"minimum length" of nine feet, and
any innholder, lodging-house, keeper,
or sleeping-car proprietor who fails
to comply with the law is liable to a
fine.

The so-called public utilities bill,
which becomes a law in New York to-
day, is one of the most far-reaching
reform measures ever passed by an
American legislature. It puts under
direct state control every public ser-
vice corporation, great or small, with
the exception of the telephone and
the telegraph. Under the new law
four of the most important state com-
missions pass out of existence. In
their place are to be two boards of
five members each, all of whom are
appointed by the governor, and these
boards are to have complete control
of the regulations governing the
transportation and lighting facilities
of the state. It will be for them to
compel all corporations to give safe
and adequate service at just and rea-
sonable rates; to prevent all rebates
and discriminations; to compel all
common carriers to have sufficient
cars and motive power, and to see
that they be held specifically liable
for loss or damage due to delay oc-
casioned by negligence.

The same law prohibits the giving
of free passes except in a few limited
instances. It provides also that no
franchise shall be capitalized in ex-
cess of the amount actually paid to
the state as consideration for the
grant of the franchise; that the cap-
ital stock of a corporation formed by
the merger or consolidation of two
or more corporations shall not ex-
ceed the sum of the capital stock of
the corporations so consolidated at
their par value, or such sums and any
additional sums actually paid in cash;
nor shall any contract for consolida-
tion or lease be capitalized in the
capital stock of any corporation what-
ever; nor shall any corporation here-
after issue any bonds against or as
a lien upon any contract for consol-
idation or merger. It is provided also
that no corporation shall purchase
or hold stock in another such cor-
poration or common carrier unless
authorized by the commission.

**RAILWAY MAGNATE

"BARE-FOOT BOY"**

President of Erie at Former Home Re-
peats Stunts and Antics of His
Youthful Days.

[SPECIAL TO THE GAZETTE.]

Milwaukee, Wis., July 1.—Fred D.
Underwood, president of the Erie
railroad and formerly of the Soo and
other lines, this afternoon took pos-
session for a few weeks, of his old home
at Wauwatosa suburb, which he has
had rebuilt at a big expense. He is
playing about the place like when he
was a boy and doesn't mind the crowds
of curious neighbors who watch his
antics when possible. Tonight he will
sleep in the hall of the old place as he
used to when a small boy. A rag car-
pet with a board under it for a pil-
low, and big blanket will comprise his
bed. He is going fishing barefooted
and perform other stunts.

[BY ASSOCIATED PRESS.]

Philadelphia, Pa., July 1.—An in-
dictment was returned by the federal
grand jury today against the so-called
umbrella frame trust, charging the
companies with entering into a con-
spiracy to form a combination in re-
straint of trade.

FRANCIS MURPHY
DIED ON SUNDAY

TEMPERANCE WORKER PASSED
 AWAY IN LOS ANGELES, CAL.

WELL KNOWN TO JANESVILLE

Hundreds Here Have Met and Loved
 the Great Man—Murphy League
 His Labor of Love.

Janesville mourns the death of its
 dear friend and brother, Francis
 Murphy, the great temperance orator
 and worker, who died Sunday in Los
 Angeles, Cal. Hundreds of people in
 Janesville have heard the great man
 talk and have learned to love him and
 many a home has been redeemed
 through his labors.

Francis Murphy for thirty-five
 years pleaded throughout the English-
 speaking world with all his eloquent
 strength for the cause of temperance,
 and until forced to retire from the
 platform by ill health he was the most
 widely known temperance orator in
 America.

He was born in 1836 in Wexford
 county, Ireland, and came to the
 United States when he was 16 years
 old. He arrived with a small sum of
 money, which was at once spent in
 drink, and the result was a big spree.
 Thereafter Mr. Murphy knocked about
 in all sorts of efforts to make a liv-
 ing, and finally landed in Portland, Me.,
 where he had a brother. In
 Portland he became the proprietor of
 an inn, where he was his own worst
 patron of the bar. He wound up in
 jail, and then his reform followed. He
 went into the temperance movement
 with his whole soul and strength, and
 his famous "blue-ribbon" was worn by
 millions in America and Great Britain.

A tragic incident contributed bur-
 ly in bringing about his reformation.
 It was September 3, 1869, that the ill
 fortune of a man named Patrick Mur-
 ray led him to the inn kept by
 "Frank" Murphy, as he was then
 called. He had been drinking and
 wanted more. He was refused and be-
 came hard to manage. Finally he
 started upstairs, and Murphy and an-
 other man in the place at the time
 tried to stop him, and Murphy used
 some force in compelling him to do so.
 In the struggle Murray was pushed
 down stairs, receiving a wound from
 which he died two days later. Francis
 Murphy was indicted for murder and
 tried a few weeks later. The
 case was a very interesting one, and
 attracted a great deal of attention.
 The jury returned a verdict of "Not
 guilty of murder, but guilty of man-
 slaughter."

Murphy was asked the usual and
 formal question if he had anything to
 say why sentence should not be passed
 on him, and in his reply he took
 the court, bar and audience by storm.
 He told the story of his life and pro-
 tested his innocence. Many wept, and
 even the judge was greatly moved.
 The result of the plea was that Murphy
 was sentenced to jail for only two
 months.

When Francis Murphy was released
 from jail he was a changed man. He
 had lost his business and when he be-
 gan life anew he was without a dol-
 lar. He determined to devote his fu-
 ture wholly to the cause of temperance.
 An opening was made for him,
 and an appointment to speak secured,
 and he showed at once that he had
 found his true vocation.

The late Ned Dow was at that time
 one of the best-known prohibition
 leaders in the country. Murphy called
 upon him at his home in Portland. The
 old soldier and prohibition leader was
 then in his prime, and he was very
 busy when the new speaker called. He
 received Mr. Murphy kindly, said en-
 couraging and appreciative words,
 and gave him a substantial sum of
 money. Thus was Francis Murphy
 started in his life work by Gen. Dow.

For some time after Francis Mur-
 phy continued his temperance work
 at a local mission in Portland. His
 fame as a speaker spread and he was
 invited to wider fields. He toured
 New England and then was invited to
 other parts of the country. For more
 than a quarter of a century thereafter
 he traveled almost constantly, visit-
 ing every city and town of importance
 in the United States and Canada and
 also making several evangelistic tours
 in Great Britain.

Mr. Murphy moved men by his elo-
 quence and sincerity. He never would
 invoke the aid of law to prevent
 men from drinking. He sought to
 work a moral reform in the nature
 of a man. Under his influence a vast
 host of people took Murphy's "Iron-
 clad pledge."

"With malice toward none, with
 charity for all, I, the undersigned, do
 pledge my word and honor, God help-
 ing me, to abstain from all intoxicat-
 ing liquors as a beverage, and that I
 will, by all honorable means encourage
 others to do the same."

In his advocacy of temperance, Mr.
 Murphy knew neither creed nor race.
 His purpose was to reach the harden-
 ed drunkards, to lift them up, and his
 eloquent sincerity won him great suc-
 cess. The movement spread like wild-
 fire all over the country, and the blue
 ribbon of the Murphy campaign was
 a familiar sight in the lapel of coun-
 tless thousands of coats.

Heart Strength
 Heart Strength, or Heart Weakness, means Nerve
 Strength, or Nerve Weakness—nothing more. For
 a weak heart is a weak nerve, and a strong heart is a
 strong nerve. It is a fact, actually, that a heart is
 a nerve, and a nerve is a heart. This is the reason why
 this cure works—the Cardiac, or Heart Nerve
 simply needs, and must have, more power, more
 strength, more controlling, more governing
 strength. Without that the heart must continue
 to fail, and the stomach and kidneys also have
 the same controlling power.

This clearly explains why, as a medicine, Dr.
 Shoop's Restorative has in the past done so much
 for weak and ailing hearts. Dr. Shoop first sought
 the cause of all this painful, perplexing, suffocating
 heart distress. Dr. Shoop's Restorative—this
 popular prescription—is alone directed to these
 weak and ailing heart centers. It builds
 strength, it offers real, genuine heart help.
 If you would have strong hearts, strong dig-
 estion, strengthen these nerves—re-establish
 them as needed, with

Dr. Shoop's Restorative

City Marshal Appleby Makes This
 Formal Announcement for
 the Fourth.

To the Public: The use or sale
 of confetti on the streets July 4th
 will not be permitted. Anyone violat-
 ing this order will be promptly ar-
 rested and taken into court.
 WILLIAM H. APPLEBY,
 City Marshal.

The above notice is worth paying
 attention to, and all prospective car-
 nival enjoyors should heed the warn-
 ing. Mr. Appleby has also been as-
 signed to take charge of the concessions
 for the Fourth of July and all per-
 sons desiring such must call on him
 for reservation and prices. There
 will be no gambling inside or out al-
 lowed.

**NORTHERN ILLINOIS IS
 DEEPLY INTERESTED IN
 JANESVILLE'S PLANS**

For the Fourth of July—Whole Town
 of Capron Is Coming to In-
 vestigate That Circus.

Dr. G. C. Waulse, who was in Cap-
 ron, Ill., yesterday, says that Janes-
 ville's Fourth of July celebration is
 a live topic of conversation in the
 northern section of the neighboring
 state. Neither Rockford, Belvidere,
 Harvard, nor Woodstock will cele-
 brate this year and the posters an-
 nouncing the Bower City's plans for
 the day are therefore attracting un-
 usual attention. Residents of Cap-
 ron told him that they had never
 heard of Nonesuch Brothers before
 and wanted to know if the circus was
 as big as Ringlings. They were
 coming up to see it, anyway.

**ANOTHER ROCKFORD COUPLE
 WEDDED BY JUDGE TALLMAN**

Eugene H. Patten and Martha May
 Daggett Took Their Vows This
 Morning.

Miss Martha May Daggett and Eu-
 gene H. Patten of Rockford were wed-
 ded by Judge Stanley D. Tallman at
 half-past eleven o'clock this morning.
 The ceremony was witnessed by the
 bride's mother, Mrs. Anna Skinner.
 The wedding party departed on an
 afternoon interurban car for the For-
 est City. Mrs. Patten is a sister of
 F. Daggett, who was married to Miss
 Maggie Keesey by Judge Tallman on
 Thursday last.

REV. CHARLES SCOVILLE SHOWS
 RESULTS FOR HIS GOOD WORK.

HOUSE PACKED LAST NIGHT

This Evening He Delivers His Lec-
 ture, "Among the Mohammedans"
 —Great Work Continues.

Sunday afternoon service was
 well attended. It was thought wise
 to make it a mass-meeting for men
 and women instead of for men only.
 Dr. Scoville preached in a way that
 inspired his listeners. He does not
 spare himself at any service. Mr.
 Moody was once asked the best way
 to revive a dead church. His laconic
 reply was: Build a big fire in the
 pulpit. Fire is contagious. Like
 priest, like people, is the old adage.
 Personality is the greatest power in
 the world today. Man kind humbly
 bows to a leader. Everyone likes the
 man who says what he means and
 means what he says.

Such a personage is Evangelist Sco-
 ville, and his enthusiasm, energy,
 and faith can only be a blessing to
 a church, city and community. His
 word and heart picture of life in its
 richest, deepest, highest, broadest and
 largest sense will never be forgotten
 by those he heard him at the after-
 noon meeting. He chose for his text
 the statement of Jesus—"I am come
 that they might have life and have
 it more abundantly." Continuing, he
 said:

"Very often to people live together
 so long and in such complete har-
 mony that they begin to look alike.
 The only conclusion is, if we want to
 have the life that never ends and the
 beautiful life here and hereafter we
 must attain ourselves with Jesus
 Christ, the life-giver. His life was full
 of inward peace and an inner joy and
 so will yours be if he is controlling
 you in every way.

Christ never lost his equilibrium.
 This man of Galilee was always quiet,
 serene, calm. The howling storm,
 and angry mob, could not disturb
 him. His life was fixed in the Eter-
 nal God. He came to show us the per-
 fect way and the larger life. I al-
 ways liked flowers but when I had
 studied botany for several terms a
 new world of beauty opened up to me.
 The stars overhead as we follow
 them in their silent courses enable
 us to think God's thoughts after Him
 and we lose ourselves in the world of
 astronomy. I thank God for all the
 master musicians of the past. What
 harmony and health and heaven they
 have brought into weary lives like
 yours and mine. And yet with all
 this sorrow, joys, joy, night comes
 after day, the pain of victory and
 then the funeral dirge. One day the
 Father declares from heaven in re-
 sponse to Jesus—"This is my beloved
 Son in whom I am well pleased, and in
 a very short while the friends of earth
 are shouting, Crucify Him, crucify
 Him. Thus it is with your life and
 mine—tossed higher and thither until
 we rest in Him who said, Come unto
 me all ye who are weary and heavy
 laden. Will you come now?"

Sunday Night
 Despite the warm sultry evening a
 great throng of people assembled at
 the rink and a most spirited service
 was held. The name of Jesus Christ
 is the only one that will attract and
 arrest the attention of people from
 day to day and week to week. The
 power of music was again exempli-
 fied last evening in the duet by
 Messrs. Smith and Var. Camp. Sweet-
 ly, tenderly and persuasively were
 the notes of this beautiful song—"A Sin-
 ner Made Whole," wafted out over
 the congregation and into the hearts
 of the people.

Dr. Scoville stepped before the con-
 gregation and gave as his text, these
 words of the writer to the Hebrews—
 "How shall we escape if we neglect
 so great a salvation?"

Synopsis of Sermon
 Neglect is the worst of hope. God
 will drive home to your hearts at this
 hour. To neglect will prove to be as
 disastrous as to reject. They both
 lead to the same destiny. No man in
 this town would say, I will never
 accept Christ as my Saviour, but he
 will say, "Not tonight," which after
 awhile will lead to a final rejection.
 You are treading on dangerous
 ground, my brother. Your excuses
 which you give to pastors and loved
 ones will not avail in God's sight.
 He knows your thoughts. Deceive
 him you can not. Why not play the
 part of a man tonight and make
 your intentions before the people?
 Are you ashamed to do the right?
 You can not be a disciple of Jesus
 in secret. He demands that you con-
 fess Him before men. Some of you
 are trifling with the Almighty One.
 Yesterday you were not, today you
 are, and tomorrow you will not be
 here but where will you be? You
 can not hide from God. Before Him
 you will stand and give an account
 of the deeds done in the body.

What you are is written upon your
 face in unchangeable characters.
 Your countenance is the reflection of
 your private life. Will you not settle
 with God tonight in His terms of
 mercy rather than wait for His judg-
 ment thunderbolts. The biggest hy-
 pocrite in the world is the man who
 knows what his duty is and then be-
 cause he has wish-bone for a back-
 bone he fails to do it.

This will undoubtedly be the last
 invitation to some one. Your Saviour
 is calling you tonight. The sermon is
 ended, the last song has been sung,
 the final appeal has been made and
 yet you have not yielded your heart
 to your best friend the Man of Cal-
 vary. Just continue to neglect and
 you will surely drift over the Niagara
 Falls of disobedience into an eternal
 abyss of misery and torment.

The damning power of sin very few real-
 ize until its fangs are fastened in
 their very vitals. The lives of many
 men in this town are so bad that they
 are in a lump with the scoundrels.

WRECK ON THE FRISCO ROAD.

Passenger Train Is Derailed and Fif-
 teen Persons Are Hurt.

Springdale, Ark., July 1.—A south-
 bond passenger train on the Frisco
 road was wrecked Sunday at Johnson
 Station, five miles south of here, by
 the spreading of the track, causing
 the dining car, two sleepers and two
 coaches to leave the rails and fall on
 their sides. Fifteen persons were
 badly bruised.

The most seriously injured was Dr.
 J. Weems, of Fort Smith, Ark., whose
 collarbone was broken. The train
 was not carrying many passengers
 and only a few were in the dining
 car, which was the first to leave the
 rails. A heavy rain had undermined
 a section of the track. The train was
 20 minutes late and running at high
 speed, and the engine, mail and ex-
 press cars passed over the under-
 mined track in safety.

Dr. Colvin, of California, a passen-
 ger, received immediate aid to the
 injured, and they were taken back to
 Fayetteville. Late in the afternoon
 another train was made up at Fay-
 etteville and the injured were able
 to proceed on their journey.

Big Fire at Mineral Wells, Tex.
 Mineral Wells, Tex., July 1.—Min-
 eral Wells, with nearly 10,000 vis-
 itors from all over the south, was
 threatened with total destruction by
 fire Sunday night. The skating rink
 Mineral Wells sanitarium and bath-
 house and about 300 small structures
 were burned. Loss, \$100,000.

Anarchist Colony Breaking Up.
 Tacoma, Wash., July 1.—Home col-
 ony, established by anarchists on Ren-

WHAT IS A WANT AD?

Nine out of ten people will answer that question this way: "Why, it's a little advertisement for Help Wanted or Situation Wanted."

Yes, it is. But is that all? Did you ever stop to think of the many uses to which these little Want Ads may be put?

Here is a list of the classification under which Want Ads can be inserted in The Gazette at a moderate cost and with the assurance of practically certain results.

You can count on your fingers the number of folks who at some time or other could not use the classified columns of The Gazette to advantage in filling a want.

Consider for a moment the scope of this list:

Real Estate—For Sale or Rent. Business Places—Sale or Rent. Ground Rents, Mortgages, etc. Real Estate—Suburban and Country. Offices. Stables. Painters and Decorators. Printers' Supplies, etc. Personal. Lost and Found. Boarders Wanted. Rooms for Rent. Apartments for Rent. Help Wanted—Male and Female. Monuments, Tombstones, etc. Funeral Directors. Real Estate—Wanted. Carriages, Wagons, etc. "PUT IT IN THE GAZETTE."

Horses, Mules, etc. Horses Boarded. Dogs, Birds, etc. Bicycles. Business Chances. Coal, Wood, and Ice. Automobiles. For Sale—Miscellaneous. Dancing. Money Wanted and Loan. Pawnbrokers. Dentistry. Apartments Wanted. Situations Wanted—Male and Female. Employment Agencies. Help—Solicitors and Salesmen. Cemeteries. Florists. Miscellaneous.

EXTRA VOTES TO WORKERS

From Now On Until Eight O'clock Monday Night, July 8th, 1907, We Will Give An Additional Amount Of Certificate Votes on Subscriptions For Periods Of Three Months And Over.

THIS WILL BE OPPORTUNITY WEEK; GET BUSY.

This Will Positively Be The Only Time That An Increased Vote Will Be Given—After Next Monday Night The Old Scale Of Votes Will Again Go Into Effect—Secure All You Can This Week—See New Scale Of Votes Below.

Contestants should not forget that this is "opportunity week," and should make every effort to secure the support of their friends and co-organization workers. Get right to work and get your share of the subscriptions to be had only for the asking. A race is never ended until the goal is reached. And until the finish there is always time for the last competitor to win out.

A word to the wise is sufficient. Secure all the votes possible this week and lay them away for the final day. To keep the daily score from looking one-sided and uninteresting we will put a limit upon the number of votes any candidate may publish in one day during the "special offer," which is first announced today.

From now until the 8th of July any candidate may have published each day enough votes to make their score 3000 more than the highest score in the contest on the day preceding. But no more. The balance of their votes may be voted any time after the 8th. Get all you can.

Votes go out daily to people who are not interested directly in the contest, and as they like to vote for a winner, the leaders naturally get the benefit of this scattering vote. It pays to be fairly well to the front. The offer for extra votes positively closes at 6 p. m. Monday, July 8th. Now is the time for your friends to make good their promises. So get busy.

SCALE OF VOTES FOR ONE WEEK ONLY.	
2 MONTHS	100 VOTES
3 MONTHS	250 VOTES
4 MONTHS	350 VOTES
5 MONTHS	450 VOTES
6 MONTHS	750 VOTES
9 MONTHS	1000 VOTES
1 YEAR	2000 VOTES
2 YEARS	5000 VOTES

Any one having paid one year in advance can pay another year and get the 3000 votes which are given on the 2nd year.

New subscribers are entitled to double the above vote.

At the close of the fiscal year the surplus cash in the United States treasury was \$56,929,425.

Charles Short, of Des Moines, Ia., fell and a needle in his vest pocket pierced his heart, killing him.

Four 160-acre Texas farms are to be awarded as premiums at the National Corn exposition to be held in Chicago, October 5 to 19.

Five men were severely burned by molten metal and \$40,000 damage was done in the plant of the Illinois Steel company at South Chicago.

Thirty-one Princeton students, mostly Frenchmen, were expelled for attending a "kag party" against the orders of President Wilson.

Capt. D. J. Moon, a well-known stock man of Creston, Ia., died of blood poisoning resulting from a scratch received from a wire fence.

Seven Japanese, chambers of commerce warned the United States that attacks on Japanese in San Francisco might obstruct trade between the two countries.

C. C. Waller, of Texas, president of the Southern Bank & Trust company; F. Demore Vernon, of Pittsburg, Pa., vice president; Ed. Hunt, assistant cashier, and J. M. Langston, Jr., director, were found guilty at Fort Smith, Ark., of using the mails to defraud.

AUTO. PLUNGES OFF BLUFF.

Falls 40 Feet into Lake—One Man Dangerously Hurt.

Ortonville, Minn., July 1.—While going at a high rate of speed Sunday afternoon, an automobile containing three persons suddenly swerved and went over a sheer embankment of 40 feet into Big Stone lake. One of the passengers was probably fatally injured, another is seriously hurt, and all had narrow escapes from drowning.

Those in the automobile were: Charles and Walter Bucholz, prominent merchants of Appleton, and the three-year-old son of Walter. They were driving along the lake shore road which at the point where the accident happened runs along the edge of a bluff. At the highest point the machine got beyond the control of the driver, swerved and went directly over the embankment. The heavy car did not turn over as it fell, but landed in 20 feet of water. Charles was struck by the steering wheel and received internal injuries which may prove fatal. A gasoline launch was near the scene of the accident, and those on board hastened to rescue the automobilists.

ENGAGED TO OWN DAUGHTER.

Wyoming Man Learns Fiancee's Identity Just in Time.

Riverton, Wyo., July 1.—Erastus Slinger, who has lived in this region a number of years, recently became engaged to his own daughter, Mrs. Nettie Farmer, and he did not find out his fiancée was his own daughter until a day or two before the time appointed for their marriage. A matrimonial agency in the east put him in correspondence with Mrs. Farmer, who was then staying temporarily with a friend near Anaconda, Mont., though her home, she said, was Portland, Ore. In her letters to Slinger she told him she was a widow, young and good looking. In his letters he misrepresented his age.

FORTY YEARS AGO

Janesville Daily Gazette, Monday, July 1, 1867.—Governor of Maine.—The democratic state convention of Maine have nominated Eben F. Pillsbury as their candidate for governor. He is a brother of Rev. C. D. Pillsbury of this city.

Overcome by Heat.—A man engaged on the framework of Myers new block, was overcome by heat and a too free use of water, and fell to the ground twice. We did not learn his name.

More Fast Horses.—Three more trotting horses arrived here today, from Freeport, Ill., and two others will arrive tonight. Over thirty fast horses are already on the ground and if the weather proves good the races must be quite attractive.

Runaway Accident.—A horse attached to a democrat wagon ran away this morning, upsetting the vehicle and throwing the driver, Mr. A. T. Hart, violently to the ground, bruising him quite severely. The animal after parting company with all the vehicle but the forward wheels took a lively race through some of the principal streets, deftly avoiding the many teams in the thoroughfare, and taking his eye out on the prairie, was found a mile beyond Mount Zion with the two wheels still attached to him.

Boy Drowned.—A little boy about nine years of age, named George H. Shearer, was drowned in the river above the railroad bridge this afternoon. He was bathing and getting in beyond his depth and being unable to swim, sunk, telling his companions to call Albert. Efforts were immediately made to rescue him, but were unavailing until an older brother of the boy arrived on the spot, and throwing off his coat plunged in, and succeeded in bringing the body to the surface after a time. Medical assistance was promptly on hand, but all efforts to restore life were futile. The mother of the unfortunate boy was nearly frantic at her sudden bereavement.

The funeral will take place tomorrow afternoon at two o'clock.

KAYSER GLOVES. Patent finger-tipped. Silk. Gloves. The name is on the back of the hand. There is a reason why they wear blades of PURE silk and PURE gloves.

Flowers from British Yukon. The British Yukon, it is said, will exhibit 200 varieties of flowers at the Alaska-Yukon exposition, to be held in Seattle in 1909.

Tobacco in Tasmania and Japan. In Tasmania no person under 13 years of age is allowed to smoke in a public place. Nearly everybody smokes in Japan, the girls begin when they are ten years of age, and the boys a year earlier.

GENTLENESS
The power of gentleness is one of the unmeasured forces in human life, says Rev. J. H. Miller. "A soft answer will pierce deeper than a two-edged sword." It is more natural under provocation to use the latter, but the use of the former is in imitation of Him who "when He was reviled, reviled not again." Gentleness gives a man power with his fellow-men. It increases the love of his friends, and disarms the anger of his enemies. He who would serve his generation well must possess it. It is to be learned in the school of Christ, who is our pattern in this as in every grace. "Thy gentleness hath made me great."

PRESIDENTIAL CANDIDATES
There are eighty-five millions of people in the United States and consequently there ought to be more than two men fitted to become candidates for President. It would seem from the way some people talk as if only Theodore Roosevelt and William J. Bryan were competent to fill the office of President, among all of the inhabitants of the country.

As a matter of fact, there are scores of men who would measure up to the presidential standard. Every state has at least one for each party, and if every state would present a candidate to each of the two nominating conventions, there would be forty-six republicans and forty-six democrats to choose from. At this stage of the contest for the presidential office, the different states ought to be encouraged to present their "favored sons," as in this way the field of choice is enlarged.

On the republican side at this time, taking no account of Roosevelt because he is not a candidate, there are four men who stand conspicuous before the country as candidates for the republican nomination. Those, in the order of their standing as candidates are: Secretary Taft, Vice-President Fairbanks, Senator Knox, and Governor Hughes. On the democratic side, not including Mr. Bryan, who has not yet made up his mind whether he will be a candidate or not, and not counting William Randolph Hearst, whose chief ambition in life at present seems to be to kill off Bryan as a political leader, there are perhaps a dozen who are more or less in the presidential field. Prominent among these are Judge Gray of Delaware, Senator Daniels of Virginia, ex-Secretary Olney of Massachusetts, Governor Folk of Missouri, Judge Harmon of Ohio and John Sharp Williams of Mississippi.

The contest for the democratic nomination is by no means in as advanced a stage as that for the republican nomination.

How many people know why we celebrate the Fourth of July? How many stop to realize that one hundred and thirty-one years ago there was signed in the Continental Congress Hall in Philadelphia, a document whose scope and benefit is greater even than the famous Magna Charter of King John's time.

Harriman thought he was immune and began his monkey work with the navy, but found that they did not stand for land tactics of even railway magnates.

June brides for nineteen-seven have passed into the yesterday. The next call will be for July and August. Do not forget your parcels and umbrellas.

Today is July one. Three more days and the list of dead and wounded from the annual Fourth of July slaughter will begin to come in.

Mayor Becker of Milwaukee has got beyond the stage of leading strings. He begins to think and act for himself.

It is safe to say that the Roosevelt family will enjoy the Fourth and it will not be in a quiet, harmless manner either.

The small boy is wondering about that circus time and whether Janesville is to see a good show this year or not.

Reform with a capital R does not always pay as well as some other brand with a smaller lot of letters.

Lake Forest is called the Newport of the west. How about Janesville being the Nonesuch of the west?

In Chicago the Cigarette fiend does not know how to begin to swear off or whether he has to or not.

Taft believes in calling a spade a spade despite the fact that he is a candidate for office.

Chicago talks about a zone of quiet just as though it would ever accomplish such a thing.

Texas has lengthened the sheets on the hotel beds to nine feet. So much for Texas.

There are good reasons to think that the Standard Oil company is not happy.

John Bull never shoots off any of his fingers celebrating the Fourth of July.

Whenever a subpoena-server looks for Mr. Rockefeller he is not there.

Prince William of Sweden is soon to embark on his American tour.

Attorney Miller says that Mr. Rockefeller is quite wealthy.

PRESS COMMENT.

Dull-Moment Topics
Exchange: Another sign of the approach of the dull season: the discussion of the mono-rail system has been revived.

Will Be Generally Approved
Milwaukee News: A Maine inventor purposes to harness the tides. It is about time that the ocean should be put to work. It has been loafing long enough.

Year's Longest Day
New York Commercial: The longest day of the year is not June 22, as the calendar states, but Fourth of July, which will doubtless begin about Monday next.

Knew How to "Work" Directors
Rockford Register-Gazette: The new secretary of the Y. M. C. A. gets a month's vacation right off the reel. He appears to have the right brand of chloroform.

The Herculean Task
La Crosse Tribune: Another reorganization of the Panama canal commission is forecasted. Smothered laughter from the grave of De Lesseps!

If Egotists Will Listen
Exchange: When General Karolich finishes telling his countrymen about the size of Uncle Sam's domain there will be a falling off in Janesville war talk.

A Refined Quotation
Exchange: Under the Sherman table in the Hall of Fame is the inscription, "War is cruel, and you can not refine it." The censored Hall of Fame is not expressive enough.

Good-bye, Aldermen!
Eau Claire Leader: In a brief and concise manner the state solons have now concurred in the Noble bill permitting cities, if they choose, to adopt the commission system of government.

Net Result Cheerfully Predicted
Bryan's Commoner: This agitation in favor of getting the upper berth cheaper than the lower berth simply means that the price of the upper will remain as it is, while that of the lower will be higher.

Even in Cuffs.
Illustration of two men, one in a suit and one in a uniform, talking.

Customer—I find the reversible cuffs give me better service, so I stick to them.
Salesman—That's right. One good turn deserves another.—Philadelphia Press.

And Learn to Do Better.
Dutch proverb: Bear patiently what thou sufferest by thine own fault.

Which Way?
"Yes," mused the celebrated oculist of fabulous fees, as he paused in the work of writing an article for the press, "we oculists want to get dots on this face-veil industry."

When a Queen Bathes.
Spanish Royalty in Seclusion Sports with the Sea Waves.

The fashionable bathing resort of Spain is in San Sebastian. But do women in that well-known tropical climate wear startling costumes? By no means. Their garb is as staid as that worn on the English coasts; very charming and becoming, but without reserved and dignified. The material is apt to be dark blue serge trimmed with white braid or crimson serge. At Trouville, in France, the bathers are not rarely annoyed—or not annoyed?—by the leveling of opera glasses, which practice is rigorously forbidden in the Spanish resort. This prohibition is partly explained by the frequent presence of the queen-mother, and also the young queen, who, of course, are left perfectly unmolested. Their bathing box is very picturesque. It is built in the Moorish style, with minarets on either side, and the dome in the middle surmounted by the royal crown in gold. When in use, it is slowly rolled down to sea, and royalty can bathe in perfect privacy, though the "box" is not inclosed.

BANNER CROWDS ARE EXPECTED ON FOURTH

Beloit, Ft. Atkinson and Other Cities in Line For Large Delegations.

Advices received from Ft. Atkinson and Beloit this morning show that these two cities are going to send down large delegations for the Fourth. In Ft. Atkinson some three hundred people are to make the trip down for the day and Jefferson will add to this number greatly. It is safe to say that Milton and Milton Junction will also furnish a goodly delegation and Edgerton, Evansville, and the northern part of the county will be in line with as many more. Even Whitewater is going to have a representation here despite the fact they have a Home Coming, and on the Mineral Point division of the St. Paul road a good sized crowd have already made inquiries as to fares and so forth. Rockford will be here with both automobiles and by interurban and other northern Illinois towns are to be represented. In fact, unless the weather is bad, Janesville will see the biggest crowd in its history.

The Morning Parade.
Eugene Fish, who has charge of the morning parade, is working hard to secure a goodly representation and thus far has not met with the success he hoped for. It is the duty of every store and factory to turn out and make this well known feature of the day's program a success.

The line of march for the industrial parade on the morning of the 4th will be as follows: The procession will form on Dodge street, from there it will proceed to Pleasant street, on Pleasant to Milwaukee, down Milwaukee to Main, down Main to So. First street, down So. First to Park street, on Park street to Court, up Court street to Bluff, on Bluff to Prospect avenue, down Prospect to N. Main, and on Main street to the park, and disband.

The Afternoon Parade.
Everything that can be done for the afternoon parade of the Nonesuch Bros. circus is being accomplished with all the rapidity possible. Hans Jacke who has charge of the military end wants more recruits and an armed sentry will be on duty at the stairway leading to the Spanish Veterans' hall every night this week to direct recruits to the drill room up stairs. Chairman Watt still wants to hear from owners of teams and wagons and what the different exhibits need and how many will be in line.

The Decorations.
Chairman Will Sayles of the decoration committee calls attention to the fact that all entries for the best decorated private residences must be made to him at Hall & Sayles' store by nine a. m., July 4th, in order to be judged by the judges. Promises of liberal decorations by the merchants have been made and the street lighting and fireworks are all ready for the final day.

WEARY HOBO FOUND REST AT HOSPITAL
Had Good Roll of Greenbacks in Ragged Clothes Which Were Deposited on Back Porch.

Victor Shields of St. Louis, to all appearances a plain, untidy hobo, drifted into town one night last week and sought for alleviation for a pain in his back at one of the local pharmacies. The genial druggist advised him to go to the Mercy hospital and the obliging gentleman of the road promptly acted on the tip. He walked into the institution and after informing a nurse whom he had followed down the corridor that he was sick, was finally assigned a cot. In the meantime he was given a bath and his garments were rolled up and deposited on the back porch. For three days Mr. Shields enjoyed fine meals and luxurious "snoozes," making no objection when physician after physician examined him without being able to discover a single imperfection in any of his functions. On Saturday one of the doctors advised that inasmuch as there didn't seem to be anything the matter with the fellow and the expense of his care would probably have to be charged up to charity, he had better be turned out. Mr. Shields did not demur, but when his clothes were brought in from the back-porch he nonchalantly extracted a roll of greenbacks from one of the pockets and paid his bill in full.

WHEN A QUEEN BATHES.
Spanish Royalty in Seclusion Sports with the Sea Waves.

The fashionable bathing resort of Spain is in San Sebastian. But do women in that well-known tropical climate wear startling costumes? By no means. Their garb is as staid as that worn on the English coasts; very charming and becoming, but without reserved and dignified. The material is apt to be dark blue serge trimmed with white braid or crimson serge. At Trouville, in France, the bathers are not rarely annoyed—or not annoyed?—by the leveling of opera glasses, which practice is rigorously forbidden in the Spanish resort. This prohibition is partly explained by the frequent presence of the queen-mother, and also the young queen, who, of course, are left perfectly unmolested. Their bathing box is very picturesque. It is built in the Moorish style, with minarets on either side, and the dome in the middle surmounted by the royal crown in gold. When in use, it is slowly rolled down to sea, and royalty can bathe in perfect privacy, though the "box" is not inclosed.

IN FAR OFF MARS.

People of Planet Hoarding Every Drop of Water.

While the people on the planet of Mars are supposed to be vastly superior in every way to the inhabitants of this earth, according to Prof. Lester F. Ward, of Brown university, they have only about 1,000,000 more years to live, while the people of this world are only beginning their allotted space of 24,000,000 years.

Thirst will kill the Martians, the professor says, and even now it is dry time perpetually up there. Most of the waters that once covered everything have vanished in the same way that this planet is all the while losing hydrogen, one of the two components of water. This process has proceeded so far on Mars that most of the liquid refreshment of its inhabitants, assuming it has such, is confined to narrow circles about the two poles. It is made available for the uses of the Martians only by means of an intricate network of canals.

"On Mars, we can, as it were, see with our own eyes a race of vast antiquity and supreme wisdom, clinging desperately to the orb that bore it, half gasping for breath, and hoarding every drop of its precious water, but doomed in the relatively near future to face the lingering death of a dying world."

This gloomy picture, Prof. Ward says, is in store for the people of this earth, but there is no need of worry at the present time, as it is 24,000,000 years distant.

Largest Building Stone.
The walls of the Acropolis at Baalbek are truly called Cyclopean. The famous Trilithon, the largest stones ever used in building, measure respectively 65, 64 and 63 feet in length, each block weighing about 750 tons. How these huge masses were accurately placed in position 20 feet above the ground is a problem which modern science, with all its appliances leaves yet unsolved.

Above them are Arab fortifications. The quarries whence these gigantic materials were obtained are among the most interesting features of Baalbek. Here may still be seen the method of work of the ancient quarrymen, stones vertically hewn lying almost ready to the hand of the builder. One of these stones, to which the Arabs give the name Hajar-el-Huobia, measures 69 feet in length and weighs 915 tons.

M. de Sauley calculates it would take the united efforts of 40,000 men to put this huge block in motion. This quarry is now used as a necropolis by the inhabitants of Baalbek—Sunday at Home.

Chinese Minister's American Ways.
The Chinese minister to the United States, Sir Chenung Liancheng, is a graduate of baseball and Yale. He is a devotee of baseball, and often attends the games. A good player himself, he often is the chief figure in a most unique picture, when playing, his skirts tucked up, with his two small boys and their little friends. Tennis, too, has been a great favorite with the minister, while he is also very much devoted to horserack riding. These last two accomplishments are rather rare among orientals.

'Sued for \$408.00 Dental Bill'

This morning's Chicago papers give particulars of a case in court where a dentist is suing a patient for \$408 for filling 14 teeth.

He brought in a lot of brother dentists who swore his charges were reasonable and that he might have charged anywhere from \$200 to \$1500 for the work and it would have been all fair.

That's just it. Some dentists charge all they think your purse will stand. That's where Dr. Richards is different.

He has fixed a fair price which will give him a living margin on his work. He makes gold crowns for \$5.00 each and warrants them the same as you are paying \$10.00 elsewhere.

The difference in price is all in the mind of the dentist you employ.

Not in the crown. As a consequence, Dr. Richards is putting on as high as 55 crowns a month.

\$10 is prohibitive but most any one feels that a tooth is worth \$5 saved to them for years of good service.

If you have him do your work it will be done right.

TWO KINDS OF MILK...

OUR KIND.

RICHNESS—All milk accepted at our dairy must reach the high standard set by us for richness in butter fat. If it falls below this standard it is rejected.

PURITY—Milk as it arrives at our plant is passed through a fine quartz filter under pressure, which removes all sediment and most of the germ life prevalent in all milk.

PASTEURIZATION—This means that every remaining form of germ life in the milk is destroyed by a simple process of heating it to a high temperature and then quickly cooling.

This is accomplished without changing the flavor or other properties of the milk.

OTHER KINDS.

There are many of them.

We shall be pleased to serve you with ours.

FORMER RESIDENT MAYBE MURDERED

DISAPPEARED WITH LARGE SUM OF MONEY LAST TUESDAY.

HUNT FOR F. J. WINANS

Formerly Worked for North-Western Here—Husband of Daughter of the Late "Nick" Fredericks.

This morning's Chicago papers announce that F. J. Winans, a former Janesville resident, who made Janesville his home for many years and married Miss Jessie Fredericks, a daughter of the late Nicholas Fredericks, is missing with a large sum of money and is thought to have been murdered. While a resident of Janesville Mr. Winans was well known and was employed in the freight yards of the Chicago & North-Western railroad. He moved to Chicago some six years ago and later his father-in-law, Nicholas Fredericks, for many years street commissioner, joined him and the two conducted a large bakery.

Sold Property Here. Less than two weeks ago the property left by the late Mr. Fredericks, where the livery barn of Goodman is located, was sold to Chicago parties and the transfer recorded. In Chicago Mr. and Mrs. Winans lived at 5323 Jefferson avenue. Mr. Winans recently was a traveling man, and left his house last Monday in company with his brother, N. E. Winans, for Marshalltown, Ia., to look at a grocery stock they contemplated purchasing. He had \$300 on his person, having drawn \$200 out of a bank in his neighborhood on the day he departed.

Were to Buy. The brothers looked over the grocery, found it satisfactory, and it was their intention to arrange the following day for its purchase. They were to have left Marshalltown for Chicago at 10:30 o'clock last Tuesday night.

Sought by Two Brothers. F. J. Winans did not keep his appointment, although his brother did, and so far as is known nobody has seen him since last Tuesday night, shortly before the departure of his train, when he was in the neighborhood of the Union station in Marshalltown.

No Trace. A. L. Winans of Lebanon, Mo., another brother, arrived in Chicago yesterday to take up the search. He was unable to get any trace of the missing man from Marshalltown, where N. E. Winans is remaining in hope that some clue to the whereabouts of his brother may be discovered by the police.

Habits Said to Be Good. F. J. Winans formerly traveled for an Indianapolis firm and search for him will be made in that city. He is 38 years old, married, and never had any domestic trouble that his brothers know anything about.

Good Habits. He never drinks, it is stated. He is 5 feet 10 inches tall, has gray eyes, smooth shaven face, brown hair worn somewhat long, has considerable gold filling in his teeth, and the forefinger of his right hand is gone. He would weigh about 175 pounds.

OGDEN H. FETHERS IS ROBBED OF A WATCH

Naples Urcin Admired It and Took It—Was Not Caught and Mr. Fethers Lost His Timepiece.

Dispatches from Paris state that Ogden H. Fethers of Janesville, Wis., was robbed of his valuable gold watch while a visitor in Naples. According to the dispatch Mr. Fethers was watched by a Naples urcin who admired his watch and took it at an opportune moment played the old game of using his head as a battering ram and while Mr. Fethers was recovering his poise, snatched the watch and ran away. Mr. and Mrs. Fethers are now in Switzerland. According to the Paris correspondent Mr. Fethers was walking along the street one day when he saw a boy eyeing his gold chain covetously and Mr. Fethers was not in the least surprised when the youngster made a dart at him and grabbed the chain and watch as well and made off. What did surprise Mr. Fethers was that neither he nor any of the crowd who immediately joined in the chase were able to catch the thief.

CASES UP-BEFORE JUDGE REEDERTODAY

El Dorado Stock Co. Case Adjourned—A. J. Harris Garnishes Street Railway Account in First National Bank.

In Judge Reeder's court today the action of Peter L. Myers vs. the El Dorado Stock company was adjourned 20 days to permit serving of notice by publication on W. J. Wright, the manager, who failed to put in an appearance. Richard Gudmann of Chicago, who sold the scenery for the three partners in the enterprise arrived here today to look after his interests, as the equipment it is claimed, was not fully paid for.

The action brought by Arthur J. Harris against the Janesville Street Railway Co. with the First National bank garnished, came up this morning and was held open until this afternoon. The plaintiff secured judgment in the sum of \$180 against the defendant last summer for damages resulting from one of the cars running into his automobile, but the defendant appealed to circuit court. At the stipulated time, however, the Street Car Co. failed to put up its bonds for the trial of the case in the higher court and the action was not entered on the calendar.

The trials of the two actions brought by Thomas Siegel and Daniel Sheridan against James Nolan, with the Janesville Machine Co., garnished, were adjourned to July 8.

KICKED IN FOREHEAD BUT WILL RECOVER

Sixteen-year-old Frank Grosclaude Met With Terrible Accident Friday Evening.

Frank Grosclaude, sixteen-year-old son of Mr. and Mrs. August Grosclaude who reside on a farm in the town of Rock about seven miles from Janesville, was kicked in the forehead by a horse Friday evening and so seriously injured that for some time there was considerable doubt regarding his recovery. He did not regain consciousness until Saturday morning. Dr. G. C. Waule, who is attending the young man, says that the iron shoe cut the flesh about the right eye so badly that the use of that organ will be permanently impaired, though the eyeball, itself, was not seriously injured. The patient is much better today. The accident occurred about half past six o'clock in the evening, the boy having attempted to interfere with the horse while it was rolling.

Mr. and Mrs. Josiah Barfield and children and Franklin J. Tyrell came here from Lake Geneva in a touring car and were registered at the Grand hotel.

Negotiating for the Baxter: F. A. Bell, R. P. Bronson, and Joseph H. Winter, all of Neenah, Michigan, are here in conference with the stockholders of the Baxter mine. It is understood that they are negotiating for the purchase of the property.

Asleep by the Tracks: After partaking of too many "high-ones" Saturday night, a man named John Riley lay down beside the railroad tracks south of the city. He was picked up by a freight-crow and brought as far as the YD tower; on the supposition that he had been overcome by the heat. On the same supposition the ambulance was called. The man spent Sunday at the city lock-up.

Special Meeting: A special business meeting of the Presbyterian Y. P. S. C. E. will be held at the church at seven o'clock Tuesday evening, July 2. A large attendance is desired.

For Former President: At the home of Mrs. C. A. Cummings in La Prairie a company of ladies from Avalon, La Prairie and Emerald Grove was pleasantly entertained in honor of Mrs. Eliza Lloyd, the ex-president of the L. M. B. S. The home was tastefully decorated with pink and white peonies and roses and a tempting repast was served.

ELECTRICITY SET FIRE TO TELEPHONE

Apparatus Was So Strongly Charged That it Touched Metal Portion Would Have Been Fatal.

During the electrical storm of last evening lightning played an odd and dangerous freak on the Rock County telephone in George Searchlight's residence on South Franklin street. Immediately after an exceedingly brilliant flash the bell rang and as the receiver was removed from the hook it spit sparks of electricity and the woodwork began smoking. By a neighbor's phone a trouble call was sent to the central office of the phone company and John Gsell, who responded promptly, found it necessary to cut the wires. An examination of the apparatus showed that it was so heavily charged with electricity that had any one touched the metal portions, grounding the circuit, death would have been instantaneous.

CHADWICK PROTESTS.

"Father of Baseball" Wants Foul Strike Rule Modified, Etc.

"DON'T ABOLISH SPIT BALL."

He Says Scientific Play Is a Chief Attraction—Lauds Batsmen of the Willie Keeler Type and Wants Kicking Tactics Left Out.

HOW TO PERFECT GAME.

By Henry Chadwick.

Cut out the kicking and limit the foul strike rule. It is an injustice to call strikes on a batsman because he bunts foul. Limit the foul strike to ball hit back of the home plate. Encourage scientific play. Clean hitting, with the foul strike rule eliminated, will remedy all evils. Don't try to abolish any varieties of the curve ball or spit ball; they are beauties of the game.

Henry Chadwick, the eighty-three-year-old father of baseball, went to bat recently against some of the phases of major league ball of today. Incidentally he gives all baseball fans something to think about.

For sixty-two years America's national pastime has filled the pages of the venerable Henry Chadwick's career. He is known wherever baseball is played as its father and its sponsor. To him its patrons appeal in time of distress. And now, in his eighty-third year, as hale and as hearty as when he was fifty, he stands guardian over the destinies of the sport, calling a halt on what he considers the evils of the modern game.

"Kicking at the umpires and exciting the crowds have driven more true fol-

"FATHER" HENRY CHADWICK.

lowers of baseball than myself from a park," declared the father of baseball. "I saw six innings of a recent New York-Chicago National league contest at the New York polo grounds, but I had to leave when the crowd began to clamor, and I can't say if I want to see any more of the professional game as it is played today. I like to watch college teams play, where there is no kicking, and I never miss a chance to watch such a contest.

"McGraw is a great leader. He told me enough to assure me that he understands scientific baseball. But when he says 'baseball's main object is to please the public' he is mistaken. That is the professional idea. It cannot be the main object from the fact that the public, as a rule, does not understand the real beauties of the game as exhibited in scientific pitching. To this add fine support in the field against such skillful work at the bat as one sees when such masters as Willie Keeler, who excels all batsmen in the art of driving a runner around, faces the pitcher. There you have the ideal game. That's what we expect.

"Don't try to abolish the spit ball or any kind of curve ball. They are beauties of the game. Cut out the kicking and limit the foul strike rule. Baseball today is not perfect. It is not the enjoyable game it was, one time despite the fact that we frequently made as many as 200 runs when the game was young. It's a farce and an injustice to call strikes on a batsman because he is unfortunate enough to bunt foul.

"Limit the foul strike to balls hit back of the home plate and forever do away with the growling and grumbling of the modern game, and baseball will be the most perfect pastime in the history of sports. Encourage scientific play. Make Keelers out of batsmen, and you have champions. That's why the Chicago White Sox are champions. A 300 average doesn't make a great batsman. Clean hitting, with the foul strike rule amended, will remedy all evils. Take it from the oldest reporter and baseball's oldest active follower."

THE ROUNDUP COLUMN.

West Gets Paid For Writing This. Everybody Get a Pen.

Jimmy Britt's training campaign for the fight with Bat Nelson has been described by a well known writer as an inaugural of a new era in preparatory methods for the ring. It seems that Jimmy somehow conceived the idea that a fighter should work no less than ten hours a day in training, and he began then and there to put the theory in practice.

The more thought that any pugilist, much less Jimmy Britt, would volunta-

rily work for ten hours during a single day is original. It is startling. It is possible, but not probable.

But maybe we have misconceived the meaning of the word "work." We consider ourselves familiar with the word, but do not pretend to know everything about anything or anything about everything. Britt's definition of "work" in the past we have understood as being something like this: "A nightmare that haunts only those who are not on friendly terms with the referee."

After all, George Washington was only a piker. He merely crossed the Delaware. Therefore he is lionized that verily "Philadelphia Jack" O'Brien doth seem far more in juxtaposition to the mustard, for he double crossed two entire nations—RUBAIYAT OF SLUGGER FLIMFLAM.

The day after the late Ed Delehanty had made his unequalled record of knocking five home runs in one day he came out to the ball park looking as if he had been up all through the night, and when Chick Frazier, the pitcher, called his attention to this fact the big fellow replied:

"And that's no lie either, Chick. I couldn't sleep a little bit last night. I dreamed of baseballs all through the night. My room seemed to be filled with them. Talk about being haunted! I was haunted last night."

"What more can you expect, Ed," the witty pitcher inquired, "but being haunted by baseballs when you kill as many as you did yesterday?"

Elmer Flick, the Cleveland outfielder, is a trotting horse enthusiast and has made the game a profitable one. He has a hobby of picking up untired youngsters, giving them their early education in winter and then disposing of them at a good profit. Just now he has a colt by Brunello, the latter a fall brother to Annulus, 2:05. The veteran trainer, Dave Muckle, thought well enough of the youngster to ship him to the Glenview track, where he will be trained.

THE GRAND CIRCUIT.

Big Harness Horse Campaign Opens at Detroit July 22.

LIST OF INAUGURAL EVENTS.

The Chamber of Commerce and M. and M. Stakes Among Those to Be Held at Detroit—Lady Patch and Hal Direct.

The harness horsemen are all aflutter over the opening of the grand circuit, which opens at Detroit July 22, lasting until the 26th.

After meets at Cleveland, Buffalo, Poughkeepsie, Rendville, Providence, Hartford and Syracuse the "big circle" events close at Columbus, O., Sept. 16-27.

A half million dollars in purses will be raced for over the best harness tracks in the world. That's going some.

The inaugural meet at Detroit will be held under the control of the Detroit Driving club.

Rules of the American Trotting association, of which this association is a member, will govern, except as otherwise specified.

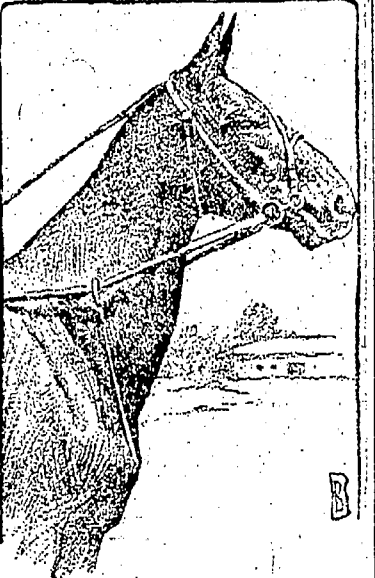

All races will consist of three heats of one mile each. In case of a dead heat between two or more horses in any of the first three heats the money in the dead heat will be divided equally, but should two or more horses stand equal—tied—in the summaries for first position at the finish of the third heat they shall race an extra heat in order to declare a winner of the race.

A distanced horse is entitled to money already won.

The programme is as follows:

ber of record pacers in. Probably no two pacers without records are more heard of than Lady Patch, a daughter of the famous Dan Patch, 1:55, and Hal Direct, with an authentic trial of 2:00, sited by the famous race horse Direct Hal, 2:04 1/4, the unbeaten. Should both of these candidates start in the race it should prove an interesting "freak of history," for both Dan Patch and Direct Hal are the unbeaten kings of turf history. In a meeting of their offspring one will have to be beaten, and the contest between the two will prove a matter of note to those who are inclined to watch turf events.

The entries to the Chamber of Commerce also bring to light the fact that the Southern Ohio pacer Major Malow, 2:26 1/4, by Box Elder, 2:23 1/4, is one of the horses entered. Major Malow has had a noteworthy career since he first saw the light of day, being one of the kind that some turf writers frequently allude to as "chance-horses" because they have seen duty on the farm before they began a racing career. Four years ago Major Malow was about the most unpromising pacer in the country. He could not pace fast enough to catch the proverbial butcher's cart, and one who would have dreamed of his being a candidate for the Chamber of Commerce stake would have been accused of having a "brain storm." But speed, like murder, will out some time, and once while he was being driven to a sleigh the pacer forever came up in the bay gelding, and he stepped through the town of Washington Court House, O., so fast that horsemen stood aghast and feared they were dreaming.

SHOOT'S DOWN HIS SWEETHEART.

Wisconsin Man Wounds Girl and Kills Himself.

Amery, Wis., July 1.—Magnus Thompson is dead and Minnie Flannum is dangerously wounded, because the course of their love did not run smoothly enough to suit Thompson. He had been courting the young woman, who lives with her parents in the town of Black Brook. The couple quarreled recently, and Saturday night he went to the home of the girl's parents and calling her to the door, fired at her, two bullets taking effect. He then turned the gun upon himself, dying instantly. In his pocket was found this note: "If Minnie and I cannot live together, we can die together and I wish to be buried by her side."

Girl Is Shot and Killed.

East St. Louis, Ill., July 1.—Barbara A. Harr, 15 years old, was shot and instantly killed Sunday at the home of Silas Agnew, her sweetheart, who is 17 years old, and Ashworth is under arrest. He says he was showing the girl a revolver, and it was accidentally discharged, the bullet penetrating her heart.

President's Boys at Home.

Oyster Bay, N. Y., July 1.—Theodore, Jr., and Kermit Roosevelt have arrived at Sagamore Hill to spend their school vacations. Theodore came from Harvard and Kermit from Groton, Mass., where he is attending the Harvard preparatory school.

UNCLE SAM AS UNDERTAKER.

Buried a Man Who Was Murdered on Site of New Post Office.

It is not often that the United States government plays the role of undertaker, but it did so a few days ago in Macon, Ga., says the Baltimore American. Two laborers employed on the new post office under construction in that city got into a fight last week and one of them was fatally shot. The premises on which the tragedy occurred being government property, the municipal authorities declined to remove the body and prepare it for burial, on the theory that it might prove embarrassing sometime in the future to complicate local affairs with those distinctly federal. The custodian in his quondary telegraphed to the treasury department, stated the situation and asked for instructions. He was directed to remove the remains, inter them and send the bill to the department. He followed instructions, and the other day rendered the bill, which amounted to \$114, among the specified items being one of five dollars "for carriage for the widow." Accompanying the bill was a letter narrating in detail the circumstances of the case and containing the following somewhat startling paragraph: "I am inclosing voucher for burial of a man who was murdered in the building under my charge in accordance with your instructions and authority in telegram dated 15th inst." One not familiar with the circumstances might feel justified in assuming that the murder was perpetrated under the directions of the treasury, but the officials solemnly affirm that they were not accessories before the fact and that there was no conspiracy to assassinate one of its employees.

GREAT SUMS SAVED BY U. S. SCIENTISTS

IMPORTANT DISCOVERIES ARE
MADE VERY FREQUENTLY.

THEY BRING HIGHER PAY

Secretary Wilson's Method of Requir-
ing Government Employees—
Some of the More Val-
uable Patents.

Washington, July 1.—"Millions of dollars—in fact a sum so vast that it cannot now be estimated—have been saved to the American people by discoveries made by government scientists during the fiscal year which closed to-day," declared Secretary Wilson Sunday in speaking of the record of the department of agriculture for the year.

"Time alone must develop the importance to the world of the experiments being conducted every day by these men, whose only reward is in the passing fame attained in reporting valuable finds. There would be money in many of these discoveries if the scientists were to patent them in their own names, but in every case the people as a whole are the beneficiaries, for the patents are dedicated to the government to be used by the United States or any of its officers or employees in the prosecution of work for the United States, or by any person in the United States without the payment of royalty."

Pay Raised for Discoveries.
Secretary Wilson feels that the recognition by the government of these discoveries is far too meager, but he does not hesitate to give to the scientist this little help whenever he feels that it is merited. Whenever a valuable discovery, warranting United States patent, is made by an employee of the department of agriculture the secretary advances the salary of the employee as much as it is possible to do under the law.

The patent is taken out in this country in the name of the scientist making the discovery and then dedicated to the United States. If the discovery is applicable to use in a foreign country the scientist is authorized to receive the benefit, but usually the patent is of a character designed to meet conditions in the United States and of little value elsewhere.

Among the patents which have attracted national attention are in relation to the labeling of fresh meats that have passed government inspection, the use of feldspathic rocks as fertilizers and the prevention of corrosion of fence wire and rusting of iron and steel generally.

Secretary Wilson estimated that the discovery of an ink which may be used in stamping carcasses that have passed government meat inspectors and which will not stain, spread or penetrate the meat, will in itself save the government between \$200,000 and \$400,000 next year and a proportionately larger sum annually as the amount of government inspected meat increases. The ink discovery was made by Marion Dorsett, acting chief of the biochemic division of the department of laboratory. He received from the government an advance in salary amounting to about \$1,000 a year.

Potash from Feldspathic Rock.
Dr. Allerton S. Cushman, assistant director of the office of pure foods, discovered the principles of the extraction of potash from finely ground feldspathic rocks. This discovery means that the United States will no longer be dependent upon Germany for the supply of potash used in the manufacture of fertilizers. B. T. Galloway, chief of the bureau of plant industry, is now experimenting with feldspathic rock in the cultivation of tobacco in Connecticut.

It was Dr. Cushman also who made important discoveries in the manufacture of fence wire of greatly increased durability at a cost no greater than under the present process. Along the same lines he investigated the subject of preventing the rusting of all exposed metals, including steel rails. In the case of Dr. Cushman, Secretary Wilson says the government can offer no reward as he already receives the highest salary authorized by law for one in his position.

GAS TO SUPPLANT COAL.
Important Step Planned by United States Steel Corporation.

Pittsburg, Pa., July 1.—That the cost of the production of steel may be reduced a few cents a ton, millions of dollars are to be spent in new machinery for the plants of the United States Steel corporation and almost a hundred engines are to be relegated practically to the scrap heap. This step will probably take two or three years to complete, but it is assured by the experiments that have been carried on at the Edgar Thomson plant of the corporation at Braddock along the lines of abolishing coal in favor of gas as fuel and using the gas that blows from the blast furnaces.

Judge Loving Acquitted.
Houston, Va., July 1.—The "unwritten law," invoked by a man whose mind was razed by eight years of continual drunkenness, was vindicated Saturday. The jury in the Loving case, after only one ballot, freed the man who shot Theodore Estes for an alleged attack on his daughter.

FLEES THE CZAR'S POLICE

YOUNG POLE GOES TO FAR WEST
TO HIDE IDENTITY.

Fugitive Who Participated in Student Riots Thinks He Was Followed to Kansas City.

Kansas City, Mo., July 1.—Expelled from his native land for treason in participating in the student riots in Poland last year, and followed, as he believes, by Russian police who desire to arrest him and return him to Russia, Vasil Kotoff, a member of a noble Polish family, has given up his position with a local packing house and fled to the far west in an effort to hide his identity from his would-be oppressors.

While the student riots were in progress in Warsaw, Poland, last year, young Kotoff, according to his story, mounted on a horse and headed one of the processions of rebellious subjects of the czar. He was there to denounce the czar for not giving Poland her promised assembly. He was arrested and placed in prison. Through an interpreter Kotoff told thus of his escape.

"With two others I escaped. We spent two weeks in a wheat field living on grain and fruit. After almost starving we reached Germany. In order to cross the border out of Russia we walked into the sea at night until our heads were just above the water. At a German seaport town we arranged for passage for Mexico."

"I went to San Antonio, Tex., where I worked in a mill. I made my way to Kansas City by riding the trucks. Now I want to go west so no one will know me."

"What would have been your punishment?" he was asked.

"Death, or perhaps, if I had friends, a life sentence in a Siberian prison, chained to a truck which I would have been compelled to push all day."

Kotoff speaks four languages, but very little English.

Battle with Ferocious Rats.

In a battle with rats, Abraham Hunsberger, of this place, killed 28 which had attacked him, while as many more escaped. When the fight began he struck at one huge gray rat with the hoe; the animal squealed, and in an instant the loft was full of rats, which attacked Hunsberger, grabbing at his legs and tearing his trousers with their sharp teeth, others jumping on his back and snapping at him.

Hunsberger dropped the hoe, frightened, and endeavored to get out of the loft through a trap door. The door had "caught," and, finding he could not get it open, he again grabbed the hoe, and, with part of the handle as a weapon, fought the infuriated little animals.—Lansdale (Pa.) Famous Sculptress Dies.

Austin, Tex., July 1.—Miss Elizabeth Nye, the famous sculptress known throughout Europe and the United States, died here Sunday morning of heart failure.

Thrones of King Edward.

Great Britain has at least half a dozen thrones, of which three are in London palaces, one in the house of lords, one in Westminster abbey, and a sixth at Windsor castle. Of these the most ancient is that in the abbey, where each new ruler of the British empire is crowned, says the New York Sun.

In the Cyclone Belt.

A Delta county farmer found a feather bed in his yard Tuesday morning. Not knowing whence it came he began an investigation and found that the bed belonged to a man who lived in Hopkins county, whose home was destroyed the evening before by a cyclone.—Honey Grove Signal.
